

# Smart and mobile with SAP Fiori®

Implementation workshops

With SAP Fiori®, SAP offers a new overall concept providing SAP applications with intuitive, role-based and customizable user interfaces. For developing such apps, SAP offers a set of design principles, developer tools and standard apps for the most widely used functions of the SAP Business Suite. Several hundred SAP Fiori apps are already available and the collection is steadily growing.

## What is the perfect way to get acquainted with SAP Fiori for your business?

The three proaxia workshops help you to obtain a rapid overview and find out how SAP Fiori can best support you.

These workshops introduce you to the entire SAP Fiori landscape, from the first overview and configuration of a sample app, to extending and developing of your own app.

proaxia supports you over the application's entire life cycle – from hands-on introduction to the system, to customized applications and support. Our experts are not only experienced in the new SAP Fiori technology, UX design and role-based solutions but also in SAP back-end systems, architectures and processes.

### Your benefits with SAP Fiori

- Immediate added value based on your existing business processes
- Reduced costs for in-house UI developments
- Simple extensions or programming of customized SAP Fiori apps using SAP technologies and developers' tools
- Simple and consistent operation of SAP applications in line with the use of consumer apps
- Easy to extend – future-proof
- Increased productivity and data quality through ease of use, especially for infrequent users
- Greater returns from your SAP software investments: no additional license costs, no training costs

### Starter webinar

- Introduction to SAP Fiori
- Defining the benefits for your business

This webinar gives you an overview of the new technology and enables you to define decision criteria and use variants for your business.

<b>Format</b>	<b>Duration</b>	2 hours
	<b>Languages</b>	German, English
	<b>Venue</b>	Webinar (online)
	<b>Price</b>	free of charge
<b>Content</b>	<ul style="list-style-type: none"> <li>• Why SAP Fiori?</li> <li>• What is SAP Fiori UX?</li> <li>• SAP Fiori architecture</li> <li>• What is the impact of SAP Fiori for my business?</li> <li>• How can I best implement it?</li> </ul>

<b>Requirements</b>	none	

### Workshop advanced level

- Introduction to SAP Fiori
- Installing and configuring SAP Fiori

In this SAP Fiori workshop, you will create an individual, hands-on sample app tailored to your business. During the workshop, we will select an SAP Fiori app, install it step by step on a demo system and configure it. In this way you will learn exactly what to look out for during each step and will end up with an actual sample configuration for your business.

<b>Format</b>	<b>Duration</b>	4 – 8 hours
	<b>Languages</b>	German, English
	<b>Venue</b>	at the customer's premises
	<b>Price</b>	individual, depending on the required scope

<b>Content</b>	<ul style="list-style-type: none"> <li>• Why SAP Fiori?</li> <li>• What is SAP Fiori UX?</li> <li>• SAP Fiori architecture</li> <li>• Installing SAP Fiori landscape</li> <li>• Configuring the landscape</li> <li>• SAP Fiori launchpads</li> <li>• Configuring standard apps</li> </ul>
----------------	---

---------------------	---

<b>Requirements</b>	none
---------------------	------

### Workshop for experts

- Introduction to SAP Fiori
- Installing and configuring SAP Fiori
- Introduction to SAP HANA cloud platforms
- Developing your own SAP Fiori apps

In the expert workshop we provide you with a thorough grounding in how to install the SAP Fiori landscape on any SAP system. You will not only learn how to install and configure standard apps, but also how they can be extended. Another important element of the workshop is development of your own SAP Fiori apps.

<b>Format</b>	<b>Duration</b>	1 – 2 days
	<b>Languages</b>	German, English
	<b>Venue</b>	at the customer's premises
	<b>Price</b>	individual, depending on the required scope

<b>Content</b>	<ul style="list-style-type: none"> <li>• Why SAP Fiori?</li> <li>• What is SAP Fiori UX?</li> <li>• SAP Fiori architecture</li> <li>• Installing SAP Fiori landscape</li> <li>• Configuring the landscape</li> <li>• Configuring the launchpad</li> <li>• Configuring standard apps</li> <li>• SAP HANA cloud platform</li> <li>• Developing your own SAP Fiori apps</li> </ul>
